SKILLS SUMMARY

- Proficient in C, C++, Objective-C, CSS, HTML, JavaScript, Node.js, Java, Git, Xcode, Sublime, Unix
- Experience in Python, jQuery, SpriteKit, iOS dev, Swift, Vim, Eclipse, Bash, Subversion (SVN)
- Ability to quickly troubleshoot operating systems including Windows, Mac OS and Linux (Ubuntu)

WORK EXPERIENCE

Software Developer | Pulse Energy Inc. | Vancouver, BC

April – August 2014

- Built automation tests in node.js, Selenium and WebDriverJs, and adopted the Sauce Labs cloud testing platform for multi-browsers testing using Agile software development practices
 - Replaced manual testing for Pulse Energy's flagship product with automated end-to-end tests
 - Expect to save the company over 1100 hours of manual testing per year
- Designed and made web layout changes with HTML, CSS, LESS as per customer requests
- Participated in the weekly iteration testing, bug fixing, and release deployment activities
- Used: JavaScript, Node.js, Knockout, CSS, HTML, Jira, Git, IntelliJ, Sauce Labs, KissMetrics

Physics and Calculus Tutor | Markham, ON

2012-2013

- Developed problem-solving skills through use of different teaching methods
- Responded to student questions and concerns

PROJECTS

Personal Website | www.sallysally.ca

2014

- Built the site using Jekyll
- Adopted parallax scrolling using JavaScript, and used jQuery Lightbox for photos viewing
- Used: JavaScript, jQuery, CSS, HTML, HTML5, Google Analytics, Jekyll, Sublime

Spinning Table | iOS Mobile Game

2014

- Wrote an iOS game using UIKit and SpriteKit framework in Swift
- Game functions included collisions detections, enabled social media sharing and score tracking

Flappy Mario | iOS Mobile Game

2014

- Wrote an iOS game with rules similar to Flappy Bird
- Used: UIKit, Foundation, CoreGraphics, Objective-C

PROcrastinator | Facebook Hackathon

2014

- Created web app in HTML and CSS that kept track of amount of time user spent on sites

Scribbler Commander Project | School Project

2013

- Programmed a robot to maneuver through obstacles in Python, and designed GUI in HTML
- Adopted subversion (SVN) for updates and version control

AWARDS & ACHIEVEMENTS
